

National Center for Fatality Review and Prevention

Application for 2022-2023 grants to address: Barriers to Participation in CDC's Cooperative Agreement for the Sudden Unexpected Infant Death (SUID) and Sudden Death in the Young (SDY) Case Registry:

Application Procedures

1. Responses to application questions must not exceed word limits.
2. Do not use attachments to answer grant application questions.
3. Attachments must include and are limited to:
 - a. Six-month timeline.
 - b. Letter of support from your state child death review (CDR) program, or the local child death review team if the funding requested is for a specific jurisdiction. This is only needed if the agency applying is not the home agency for CDR.

Application Available

National Center for Fatality Review and Prevention Website. [Our Role – The National Center for Fatality Review and Prevention \(ncfrp.org\)](https://www.ncfrp.org/our-role)

Rolling applications will be accepted starting on September 15, 2022 and accepted until all funds are distributed. Applications must be submitted via email to the National Center for Fatality Review and Prevention at info@ncfrp.org. Funding will be prioritized on when applications are received and feasibility of the proposed project.

The SUID and SDY Case Registry: Barriers to Participation grants are supported by the Centers for Disease Control and Prevention Division of Reproductive Health (CDC/DRH), via a contract with the National Network of Public Health Institutes.

Project Title and Abstract

Title of proposed project:

Summary /Abstract of the proposed project (250-word limit):

Please Address Each of the Following Questions

- 1) Does your agency/jurisdiction currently receive CDC funds to participate in the SUID and SDY Case Registry?
- 2) Please describe the barrier(s) your CDR team identified to participation in the Case Registry.
- 3) Describe in one sentence the overall objective of your proposed project.
- 4) Provide a project timeline that is no longer than six-months, outlining key activities associated with this project. Activities should conclude by the end of the period of performance, June 30, 2023. *Submit this timeline as an attachment to your application.*

- 5) List 1-3 specific and measurable objectives you want to achieve with this proposed project (150-word limit).
- 6) Describe how your project objectives listed in Question #5 will be measured and specify how you will track these measures (150-word limit).
- 7) Identify internal and external partner(s) that will be part of this project (150-word limit).
- 8) Address how your proposed project/plan will address barriers to participation in the Case Registry. (250-word limit)
- 9) How will you know if the overall goal of the project was achieved (150-word limit)?
- 10) Describe the potential long-term impact of your proposed project, including plans for sustainability (150-word limit).

11) Please attach a budget listing expected expenses and a short explanation of each. *Submit the budget as an attachment to your application.*

All applications must be submitted by email to info@ncfrp.org

Please note the funding for this project is contingent on the National Center for Fatality Review and Prevention receiving funding.
